

SPEED COLORS

15-20
MIN.

Minigame

Print and play!

- 1** Print out the first page and take 6 colored pencils in 6 different colors (red, green, yellow, blue, purple and orange).
- 2** Open the second page on a computer or a smartphone.
- 3** Look at the first card for 5 seconds, then close it.
- 4** Color the first black-and-white card on the printed page just like the colored image.
- 5** If you succeeded, well done! Now try to memorize other cards and color them!

If you want to challenge other players, print out the first page for every player. Continue playing by the same rules. As soon as one of the players is done coloring his image, everyone stops. For each correctly colored area the player receives 2 points, for each incorrectly colored area the player receives 1 point. For an uncolored area the player receives 0 points. The players receive points only for neatly and fully colored areas.
