A top secret Soviet space mission set out to colonize a planet in a remote galaxy, far away from home. The settlers built there a small communist heaven which exists to this day. As one of the leaders, your goal is to guide the settlers on this new, yet strangely familiar terrain. The players get to control all of the settlers, each time a different one. You must expertly manage the resources and choose the jobs carefully so as not to upset the settlers: keeping up the morale is of utmost importance if you want to become the most prolific leader!

- A new take on the familiar worker placement mechanics.
- A seamless combination of theme and mechanics.
- Suits both families and dedicated gamers.

“ This is a **VERY** clever worker-placement game. This game **definitely delivers**. We have to pay very, very close attention to the emotional needs of our workers. It is very sharp, really really unique and **a LOT of fun!** ”

-Richard Ham, Rahdo Runs Through
